

LEGAL DOCUMENT

PRIVACY POLICY

What data Boyzueira processes, why, who it is shared with and how you exercise your rights. No selling of data and no advertising tracking.

Your privacy matters. Boyzueira is a game that runs inside Telegram (a Telegram Mini App), operated by BOYZUEIRA LLC ("Boyzueira", "we", "us"). This Policy explains what personal data we process when you use the game and the website boyzueira.com, why, who we share it with and what your rights are.

In short: login is your Telegram account, we don't ask for a password, we don't sell data and we don't use advertising or third-party tracking.

1. DATA WE PROCESS

Data we receive from Telegram when you open the game:

- your numeric Telegram ID, username (@), first name and last name;
- your profile photo;
- the language set in your Telegram, which we use to choose the game's language and to infer your country (shown as a flag on your profile).

Data generated by your use of the game:

- game progress and balances (in-game followers, level, gems, chips, items, achievements, missions and tasks);
- activity history (login and play dates, in-game transactions, head-to-head matches);
- raffle participation: your numbers, where each number came from and the date on which you declared you are 18 or older and accepted the rules;
- invites, allies, squad and affiliate codes used;
- answers, links and notes you submit in missions and achievements.

Technical data: IP address and browser or app information, recorded in server logs and used for a short time to limit abuse and detect cheating.

We do not collect email, phone number, documents, bank details, passwords or wallet keys.

2. SOCIAL ACCOUNT VERIFICATION

To take part in the raffle and in some missions, you can link an Instagram, TikTok or YouTube account. You post a code in a comment on an official Boyzueira post, and we read the public comments on that post to confirm the account is yours.

From the linked account we store the platform ID, the username at the time of linking and the comment that served as proof. We never post anything on your profile and we never ask for your password.

To do this, we collect the public comments on official Boyzueira posts, including those from people who don't play, with the username, text and date of each comment. For some TikTok achievements, we also read public videos with an official hashtag. This data is used only to verify accounts, missions and achievements.

3. HOW WE USE THE DATA

- To create and maintain your account and your game progress.
- To show your profile, rankings and achievements to other players.
- To verify social accounts, missions and achievements, and to ensure one account per person.
- To run the raffle: issue numbers, hold the draw, publish the proof and contact the winner.
- To run head-to-head matches and their results.
- To send game notifications through the official Telegram bot (for example, when a task finishes).
- To prevent fraud, cheating and abuse, and to comply with legal obligations.

4. LEGAL BASES

We process your data to provide the service you requested by using the game, based on our legitimate interest in keeping the game safe and fair, to comply with legal obligations and, when necessary, with your consent. In Brazil, this follows the General Data Protection Law (LGPD, Law No. 13,709/2018); in the European Union, the General Data Protection Regulation (GDPR).

5. WHO WE SHARE IT WITH

We do not sell your data. We only share what is necessary with:

- Telegram, for login, profile photo and sending messages through the bot;
- Apify, a service we use to read public comments and videos linked to official posts and hashtags (we only send the post address or the hashtag, never your data);
- hosting and infrastructure providers (Amazon Web Services and Vercel), which store and process data on our behalf;
- authorities, when required by law.

We do not use advertising or third-party tracking tools.

6. INTERNATIONAL TRANSFER

Our servers and providers may be located outside your country, including in the United States. In these cases, we take measures so that your data receives adequate protection.

7. WHAT OTHER PLAYERS CAN SEE

- Your nickname, Telegram username, name, photo, level, in-game followers, hype, achievements, equipped items and country flag appear on your profile and in the rankings. Your profile photo can be accessed by anyone who has its address.
- The number of verified social accounts appears on your profile, but not which accounts they are.
- In the public proof of the draw, anyone can see the list of participating numbers (without their owners) and the winner's nickname.

8. STORAGE ON YOUR DEVICE

We only store in your browser or in Telegram what the game needs to work: your session codes, your preferences (language, sound, vibration) and markers for screens you have already seen. We use a single cookie, which stores your chosen language. The details are in the **Cookie Policy**. We do not use advertising cookies.

9. HOW LONG WE KEEP IT

We keep your account data for as long as the account exists. Raffle records (numbers, draw and proof) are kept after the draw so that the result remains verifiable. Technical security records are deleted within minutes or hours.

When you request the deletion of your account, we delete or anonymize your data, except what we must keep by law or to preserve the proof of a draw that has already taken place.

10. YOUR RIGHTS

You can request access to your data, correction, a copy, deletion of your account and data, and object to processing or withdraw consent. To do so, contact us at **privacy@boyzueira.com** or through the official bot **@boyzueira_oficial_bot**. We may ask for confirmation that the account is yours, and we respond within **15 days**.

You can also file a complaint with the data protection authority of your country (in Brazil, the ANPD).

11. MINIMUM AGE

The game is for people aged 13 or older. The raffle is for people aged 18 or older only. If we learn that we have collected data from someone below the minimum age, we delete that data.

12. SECURITY

We use encrypted connections, restricted access to systems and validation of your Telegram identity at every login. No system is completely secure, but we work to protect your data and will notify you and the authorities when the law requires it.

The Boyzueira team will **never** ask for your password, login code, seed phrase or private key.

13. CHANGES TO THIS POLICY

We may update this Policy. When a change is important, we will announce it in the game. The date on the cover shows the latest update.

14. CONTACT

- BOYZUEIRA LLC
- Email: privacy@boyzueira.com
- Telegram: [@boyzueira_oficial_bot](https://t.me/boyzueira_oficial_bot)

Boyzueira · From nobody to the top.

Official channels: the **@boyzueira_oficial_bot** bot on Telegram and **@boyzueira.official** on Instagram, TikTok and YouTube. Any other channel asking for your data is not us.
